BRIEF NOTES.

There will be a special meeting of the Township Committee on the 29th, to discuss the street lighting question.

The Icemen's ball will take place in Metz's Hall on the evening of Feb. 1st. It will be conducted in "Mc Allister" style.

The prompt manner in which the snow is cleared from the sidewalks after a storm is commendable, and the township authorities are deserving of thanks.

The issuing of township bonds for public improvements is inevitable in the near future, and it is a matter that should be borne in mind in selecting Town Committeemen.

The school trustees of Montclair have had plans prepared for one of the most handsome high school buildings in the State.

Mr. Thomas Flannery went to Trenton last Monday, and had a talk with his friend, Senator Barrett. It was simply a friendly call, to let Mr. Flannery tell it.

If some poor, unfortunate fellow, gets mixed up in a saloon row, the newspapers are sure to give a glowing account of it. When some fellow with a political, gets in a similar predicament, "mum" is the word among the newspaper men.

"Untravelled Labrador and the Eskimo," is the subject of an illustrated lecture to be delivered by Miss Anna L. Ward, in the Westminster Church, on Friday evening, the 29th inst. The lecture is given under the auspices of the Ladies Aid Society of the Church.

If the Town Committee decides to adopt electric lighting it would perhaps be well to include several arc lights in the system and place them at points of prominence in the town.

"Old Father Rhine from source to mouth" will be the subject of a lecture by the Rev. A. W. Fasmer of the Hopkins St. Church, Brooklyn, illustrated by eighty-five stereoptican views in the German Presbyterian Church on Park Avenue next Friday evening, January 29th, for the benefit of the Russian sufferers. The lectures are certainly worth the price of admission, fifteen cents.

The Township Committee will have the Wheeler and Naphtha Lights on trial in the Centre next Tuesday evening.

The best medical authorities say the proper way to treat catarrh is to take a constitutional remedy, like Hood's Sarsaparilla.

Beware of Ointments for Catarrh that contain Mercury.

as mercury will surely destroy the senses of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

Sold by Druggists, price 75c. per bottle.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Send by mail by addressing with stamp naming this paper. W. A. NOYES, 820 POWERS BLOCK, ROCHESTER, N. Y.

Stricken with Blindness While Singing.

George Neely, a Kensington boatman, has been suddenly and mysteriously stricken blind. His eyesight left him Monday, without warning and without any painful confinement. He had begun his usual work on a canal boat on the Raritan canal, from New Brunswick. He had walked a step or two on the boat, singing merrily to himself, when suddenly everything grew black. He could not see objects half a foot distant. His vision had completely failed him.

Groping about the deck he tried to communicate his affliction to the other deck hands. When his true condition was discovered he was tenderly taken care of, and when the canal boat reached this city he was conveyed to his home in Kensington, and there attended to. Still he grew no better. It was then decided that the best place for him was a hospital.

His nephew accompanied him to the Philadelphia hospital. On arriving there he was examined and placed in the nervous ward, where he is resting quietly, with his vision only slightly improved.—Philadelphia Record.

Marriage Under Difficulties.

A. M. Phillips and Millie Burns, of Coleridge, Neb., had to visit three states before they were married.

The couple first went to Hartington to be united, but the bride was too young to meet the requirements of the Nebraska law. On Sunday they started for Yankton, being assured that they could meet with no obstacles. Arrived at the Missouri river they found the bridge had been washed out only an hour before. It was night before they finally found a boatman to take them to the South Dakota bank, where they found themselves two miles above the town in a willow thicket.

Late at night they reached town and were obliged to wait till morning before calling on a justice of the peace. On Monday they learned to their disgust that the laws of South Dakota, although more liberal than those of Nebraska, did not sanction the marriage of one so young as the would be bride. They were told to go to Iowa, which they did, and there met with better success.—Cor. Minneapolis Tribune.

Exporting Live Geese from Russia.

Live geese are exported from Russia to Germany and Austria in very large numbers. An export house of Warsaw intends building special cars for the transportation of geese directly to their places of destination, if the railroad managers will grant them permission to run the cars. The ministry on roads of intercommunication was notified of the proposal of that firm, and its favorable decision is expected. The cars are to be constructed with appliances to change from the broad gauge of the Russian lines to the narrow gauge of the German lines without loss of time.—St. Petersburg Letter.

Will Be Visited by the Queen.

Costebelle, the charming suburb of Hyeres, at which it is announced that the queen will spend the month of March, is delightfully situated on the southern slopes of the lovely Costebelle hills, and is promptly identified by Americans as "the nearest thing in Europe to a south California ranch"—though the busy little neighboring town, with its orchestra and casino, somewhat upsets the delusion.—London Letter.

In a photograph of the heavens now in course of preparation at the Paris observatory, it is calculated that 60,000,000 stars will be represented. In the nebulæ of the Lyre, M. Baillaud took a photograph 4 by 5½ inches which reveals 4,800 stars to the naked eye!

The Florida orange has so far supplanted those from the Mediterranean that they will be shipped directly from Florida to Europe. In the Liverpool market they bring nearly double the price of other oranges!

Dr. Kennedy's Favorite Remedy is a blessing. It has saved thousands, and it will save you. If you are sick and miserable, we advise you to spend One Dollar for this King of Medicine.

And a good lamp

must be simple; when it is not simple it is not good. *Simple, Beautiful, Good*—these words mean much, but to see "The Rochester" will impress the truth more forcibly. All metal, tough and seamless, and made in three pieces only, it is *absolutely safe* and *unbreakable*. Like Aladdin's of old, it is indeed a "wonderful lamp," for its marvelous light is purer and brighter than gas light, softer than electric light and more cheerful than either.

Look for this stamp—THE ROCHESTER. If the lamp dealer has'n't the genuine Rochester, and the style you want, send to us for our new illustrated catalogue, and we will send you a lamp safely by express—your choice of over 2,000 varieties from the *Largest Lamp Store in the World*.
